SaaS SLP Pricing Catalog

Effective March 2026

This document contains the Schedule for Listing Price (SLP) for xAQUA Unified Data Platform SaaS products. Pricing columns show MSRP/List, GSA Price, and SLP Price. Base subscriptions marked **FREE — 30 Days** include a complimentary 30-day trial; contracted rates apply thereafter. All prices are in USD.

xAQUA Reeve

xAQUA Reeve — Starter Tier (Self-Service)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DMG.SL.ST	**xAQUA Reeve** **Subscription: Starter** **No-Code Data Product Catalog & Marketplace** Deployment: SaaS Only (Multi-tenant) No-Code Natural Language Platform — No engineers required: • Natural language data exploration via ConverseDataIQ (ask questions, get answers with insights) • No-code data product creation using SQL query builder, data blend, and file upload • AI-powered schema auto-discovery, relationship detection, and semantic enrichment (SemantIQ) • Data product catalog with search, browse, and metadata • Basic data product sharing (link, CSV/JSON export) Usage Allocations: Data Sources Connected: Up to 3 (RDBMS, cloud data warehouses, cloud object stores) Data Products Published: Up to 10 AI Tasks/Month: Up to 500 (ConverseDataIQ queries, SQL generation, semantic enrichment) Creator Users: Up to 2 Consumer Users: Up to 5 Core Platform Included: SemantIQ (data catalog + Zyra agent), ADL (analytics data lake), ConverseDataIQ, ConverseSQL LLM: Public LLM (shared) Support: Community + documentation only *Note: Athyna (NL data cleansing/transformation) not available in Starter. Upgrade to Professional.*	$149/mo	$119/mo	**$109/mo**
UDP.DMG.SL.ST.ADDL_DS	**xAQUA Reeve** **Subscription: Starter** **No-Code Data Product Catalog & Marketplace** Cost for Additional Data Source/Mon (beyond 3 included) Includes: Auto-discovery, schema enrichment, connection maintenance	$40/mo	$32/mo	**$28/mo**
UDP.DMG.SL.ST.ADDL_DP	**xAQUA Reeve** **Subscription: Starter** **No-Code Data Product Catalog & Marketplace** Cost for Additional Data Products Published (+5 data products)	$25/mo	$20/mo	**$18/mo**
UDP.DMG.SL.ST.ADDL_AI	**xAQUA Reeve** **Subscription: Starter** **No-Code Data Product Catalog & Marketplace** Cost for Additional AI Task Block (+250 tasks/month) *Note: Each AI task = one NL query, SQL generation, semantic enrichment, or insight generation*	$30/mo	$24/mo	**$21/mo**

xAQUA Reeve — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

UDP.DMG.SL.PROF	**xAQUA Reeve**	$1,400/mo	$1,120/mo	**$999/mo**
	Subscription: Professional			
	No-Code Data Product Catalog & Marketplace			
	Deployment: SaaS Only (Multi-tenant)			
	No-Code Natural Language Platform — No engineers required:			
	All Starter Capabilities Plus:			
	• xAQUA Athyna — no-code data cleansing and transformation workflows using natural language (describe what you want in plain English → Athyna generates and executes the transformation pipeline)			
	• Data blend — combine data from multiple sources into unified data products using NL or visual builder			
	• Data product marketplace — publish, version, and share trusted data products across teams			
	• Data product quality scoring (powered by SemantIQ + Qualix integration)			
	• Notebook save/export/share — save ConverseDataIQ analysis sessions, export, share with colleagues			
	• Scheduled data product refresh			
	• Custom branding on marketplace			
	Usage Allocations:			
	Data Sources Connected: Up to 10 (RDBMS, cloud data warehouses, cloud object stores, files, APIs)			
	Data Products Published: Up to 50			
	AI Tasks/Month: Up to 3,000 (ConverseDataIQ, Athyna transformations, SQL generation, enrichment)			
	Athyna Transformation Jobs: Up to 200/month			
	Creator Users: Up to 5			
	Consumer Users: Up to 25			
	Notebooks: Up to 50			
	Core Platform Included: SemantIQ (data catalog + Zyra agent), ADL (analytics data lake), ConverseDataIQ, ConverseSQL			
	LLM: Public LLM (shared)			
	Support: Standard (24h SLA, email + chat)			
	Includes: Guided onboarding			
	Note: Professional Edition supports Public LLMs only.			
UDP.DMG.SL.PROF.ADDL_DS	**xAQUA Reeve**	$120/mo	$96/mo	**$85/mo**
	Subscription: Professional			
	No-Code Data Product Catalog & Marketplace			
	Cost for Additional Data Source/Mon (beyond 10 included)			
	Includes: Auto-discovery, schema enrichment, connection maintenance, refresh scheduling			
UDP.DMG.SL.PROF.ADDL_USER_CREATOR	**xAQUA Reeve**	$120/mo	$96/mo	**$85/mo**
	Subscription: Professional			
	No-Code Data Product Catalog & Marketplace			
	Cost for Additional Creator User/Mon (beyond 5 included)			
	Creator Users: Full access to data product builder, Athyna, ConverseDataIQ, notebooks, marketplace publishing			
UDP.DMG.SL.PROF.ADDL_USER_CONSUMER	**xAQUA Reeve**	$30/mo	$24/mo	**$21/mo**
	Subscription: Professional			
	No-Code Data Product Catalog & Marketplace			
	Cost for Additional Consumer User/Mon (beyond 25 included)			
	Consumer Users: Browse marketplace, consume data products, query via ConverseDataIQ, view notebooks, export data			
UDP.DMG.SL.PROF.ADDL_DP	**xAQUA Reeve**	$80/mo	$64/mo	**$56/mo**
	Subscription: Professional			
	No-Code Data Product Catalog & Marketplace			
	Cost for Additional Data Products Published (+25 data products)			

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
`UDP.DMG.SL.PROF.ADDL_AI`	**xAQUA Reeve** **Subscription: Professional** **No-Code Data Product Catalog & Marketplace** Cost for Additional AI Task Block (+1,000 tasks/month) Includes: ConverseDataIQ queries, Athyna transformations, SQL generation, insight generation, semantic enrichment	$100/mo	$80/mo	**$70/mo**
`UDP.DMG.SL.PROF.ADDL_ATHYNA`	**xAQUA Reeve** **Subscription: Professional** **No-Code Data Product Catalog & Marketplace** Cost for Additional Athyna Transformation Job Block (+100 jobs/month) *Note: Each Athyna job = one NL-described data cleansing/transformation workflow execution*	$75/mo	$60/mo	**$55/mo**

xAQUA Reeve — Enterprise Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
`UDP.DMG.SL.ENT`	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Deployment: SaaS (Multi-tenant or Dedicated Cloud) No-Code Natural Language Platform — No engineers required: All Professional Capabilities Plus: • Advanced Athyna — complex multi-step transformation pipelines, scheduling, dependency chains • Data product lineage — full upstream/downstream lineage visualization powered by SemantIQ • Data product certification — approval workflows for promoting data products to "trusted" status • Marketplace governance — RBAC-controlled publishing, consumption policies, usage analytics • API access — programmatic data product creation, retrieval, refresh triggering • Cross-source data products — blend data from any connected source into unified products • Data product subscriptions — consumers subscribe to products and receive update notifications • Collaborative notebooks with commenting and version control • SSO (Azure AD / Okta) • Custom RBAC — role-based access to sources, products, and marketplace sections Usage Allocations: Data Sources Connected: Up to 25 (RDBMS, cloud data warehouses, cloud object stores, files, APIs, streaming) Data Products Published: Up to 500 AI Tasks/Month: Up to 15,000 (fair use) Athyna Transformation Jobs: Up to 1,000/month Creator Users: Up to 25 Consumer Users: Up to 100 Notebooks: Unlimited Core Platform Included: SemantIQ (data catalog + Zyra agent), ADL (analytics data lake), ConverseDataIQ, ConverseSQL LLM: Public LLM (shared) or Hybrid (dedicated instance add-on) Support: Priority (4h SLA, dedicated CSM, QBRs) *Note: Annual contract required. AI tasks follow fair-use model — alerts at 80%, billing at sustained 150%+ for 2 consecutive periods.*	$3,200/mo	$2,560/mo	**$2,250/mo**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DMG.SL.ENT. ADDL_DS	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional Data Source/Mon (beyond 25 included)	$100/mo	$80/mo	**$70/mo**
UDP.DMG.SL.ENT. ADDL_USER_CREAT OR	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional Creator User/Mon (beyond 25 included)	$85/mo	$68/mo	**$60/mo**
UDP.DMG.SL.ENT. ADDL_USER_CONSU MER	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional Consumer User/Mon (beyond 100 included)	$18/mo	$14/mo	**$13/mo**
UDP.DMG.SL.ENT. ADDL_DP	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional Data Products Published (+100 data products)	$200/mo	$160/mo	**$140/mo**
UDP.DMG.SL.ENT. ADDL_AI	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional AI Task Block (+5,000 tasks/month) *Note: Fair-use model — overage billing only at sustained 150%+ for 2 consecutive periods*	$350/mo	$280/mo	**$245/mo**
UDP.DMG.SL.ENT. ADDL_ATHYNA	**xAQUA Reeve** **Subscription: Enterprise** **No-Code Data Product Catalog & Marketplace** Cost for Additional Athyna Transformation Job Block (+500 jobs/month)	$250/mo	$200/mo	**$175/mo**

xAQUA Reeve — Enterprise Add-Ons

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DMG.SL.ENT. HYBRID_LLM	**xAQUA Reeve** **Subscription: Enterprise Add-On** **Hybrid LLM (Dedicated Instance)** Dedicated GPT-OSS 120B instance on xAQUA-managed cloud infrastructure. Single-tenant LLM with no data co-mingling for ConverseDataIQ, Athyna, SQL generation, and semantic enrichment. Customer data never leaves dedicated compute boundary. Prerequisite: UDP.DMG.SL.ENT base subscription	$3,500/mo	$2,800/mo	**$2,500/mo**
UDP.DMG.SL.ENT. DATA_GOV_PACK	**xAQUA Reeve** **Subscription: Enterprise Add-On** **Data Governance & Trust Pack** Enhanced data product governance capabilities: • Multi-level certification workflow (draft → reviewed → certified → trusted) • Data product SLA monitoring (freshness, availability, quality score thresholds) • Usage analytics — who consumes which products, how often, for what purpose • Deprecation workflow with consumer notification and migration planning • Data product impact analysis (what breaks if a source changes) • Compliance tagging — PII/PHI/PCI classification on data products (SenseMask integration) Prerequisite: UDP.DMG.SL.ENT base subscription	$800/mo	$640/mo	**$560/mo**

xAQUA Reeve — Enterprise Plus Tier (Dedicated Deployment)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DMG.SL.ENTPLUS.LICENSE	**xAQUA Reeve** **Subscription: Enterprise Plus** **No-Code Data Product Catalog & Marketplace — Platform License** Deployment: Dedicated VPC / Airgapped / On-premises No-Code Natural Language Platform — No engineers required: All Enterprise Capabilities Plus: • Unlimited data sources, data products, AI tasks, and transformation jobs • Data Governance & Trust Pack included • Advanced Athyna — custom transformation templates, reusable pipeline components, version-controlled workflows • Multi-catalog support — department/division-level catalogs with federated discovery • Data product marketplace with white-label option • Real-time data product refresh (streaming sources) • Custom identity provider (Keycloak) • Full API access for data product lifecycle automation • BYOL support for private LLM powering all NL capabilities • Fully airgapped operation — no data leaves deployment boundary Usage Allocations: Data Sources: Unlimited (contract-defined) Data Products Published: Unlimited AI Tasks/Month: Unlimited (infrastructure-bound) Athyna Jobs: Unlimited (infrastructure-bound) Creator Users: Unlimited (contract-defined) Consumer Users: Unlimited (contract-defined) Notebooks: Unlimited Core Platform Included: SemantIQ, ADL, ConverseDataIQ, ConverseSQL (all unlimited) LLM: Bring Your Own LLM (BYOL) — Public or Private Support: Dedicated TAM (1h critical SLA), QBRs, on-site support available *Note: All pricing custom and negotiated. Annual contract required.*	$200,000/yr	$160,000/yr	**$140,000/yr**
UDP.DMG.SL.ENTPLUS.GPU	**xAQUA Reeve** **Subscription: Enterprise Plus** **Private LLM Infrastructure — GPU Compute** Dedicated GPU compute for private LLM deployment powering ConverseDataIQ, Athyna, SQL generation, and semantic enrichment. Pass-through infrastructure cost. Deployed within customer VPC. Prerequisite: UDP.DMG.SL.ENTPLUS.LICENSE GSA and SLP Price - (Pass-through — at cost)	$15,000/mo	$15,000/mo	**$15,000/mo**
UDP.DMG.SL.ENTPLUS.DEPLOY	**xAQUA Reeve** **Subscription: Enterprise Plus** **Deployment & Configuration — One-Time Setup** Includes: VPC/on-premises deployment, identity provider integration, data source connectivity, SemantIQ catalog seeding, Athyna transformation templates, marketplace configuration, custom branding, training and enablement. Prerequisite: UDP.DMG.SL.ENTPLUS.LICENSE (Scoped per Statement of Work)	$80,000 (one-time)	$64,000 (one-time)	**$56,000 (one-time)**

xAQUA Composer

xAQUA Composer — Starter Tier (Self-Service)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.ST	**xAQUA Composer** **Subscription: Starter** **No-Code Data Pipeline Automation (DPA) Platform** Deployment: SaaS Only (Multi-tenant) No-Code Dual Interface — No engineers required: • Natural language pipeline design — describe your data flow in plain English, Composer builds the pipeline • Visual drag-and-drop pipeline builder — connect sources, transformations, and targets visually • AI-assisted SQL/Python code generation for custom transformation logic • Pre-built connector library (50+ connectors: RDBMS, cloud warehouses, SaaS apps, files, APIs) • Basic pipeline monitoring (execution status, error logs) • Manual pipeline execution only Usage Allocations: Data Connections (sources + targets): Up to 5 Active Pipelines: Up to 10 AI Tasks/Month: Up to 500 (NL pipeline design, SQL/Python generation, validation) Users: Up to 2 Core Platform Included: SemantIQ (schema discovery + enrichment), ADL, ConverseDataIQ, ConverseSQL LLM: Public LLM (shared) Support: Community + documentation only *Note: Starter Edition — manual execution only. No scheduling. Upgrade to Professional for scheduled pipelines.* FREE - 30 Days	$129/mo	$103/mo	**$95/mo**
UDP.DP.SL.ST.ADDL_CONN	**xAQUA Composer** **Subscription: Starter** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Data Connection/Mon (beyond 5 included) Includes: Source or target connection, auto-discovery via SemantIQ, pre-built connector configuration	$30/mo	$24/mo	**$21/mo**
UDP.DP.SL.ST.ADDL_PIPELINE	**xAQUA Composer** **Subscription: Starter** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Active Pipelines (+5 pipelines) *Note: An active pipeline = one defined data flow from source(s) through transformation(s) to target(s)*	$25/mo	$20/mo	**$18/mo**
UDP.DP.SL.ST.ADDL_AI	**xAQUA Composer** **Subscription: Starter** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional AI Task Block (+250 tasks/month) *Note: Each AI task = one NL pipeline design interaction, SQL/Python generation, or validation step*	$30/mo	$24/mo	**$21/mo**

xAQUA Composer — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

UDP.DP.SL.PROF	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Deployment: SaaS Only (Multi-tenant) No-Code Dual Interface — No engineers required: All Starter Capabilities Plus: • Scheduled pipeline execution — hourly, daily, weekly, monthly with dependency chains • Pipeline templates — pre-built patterns for common ETL scenarios (CDC, full load, incremental, SCD Type 2) • Error handling & retry logic — configurable retry policies, dead letter queues, failure notifications • Pipeline versioning — version control with rollback capability • Data quality gates — inline quality checks between pipeline stages (Qualix integration) • Execution monitoring dashboard — pipeline health, throughput, error rates, SLA tracking • Email/webhook notifications on pipeline events • Custom transformation library — save and reuse custom SQL/Python transformations Usage Allocations: Data Connections (sources + targets): Up to 15 Active Pipelines: Up to 50 Pipeline Runs: Up to 5,000/month AI Tasks/Month: Up to 2,500 (NL pipeline design, SQL/Python generation, validation, optimization) Users: Up to 5 Pre-Built Connectors: 50+ (RDBMS, Snowflake, BigQuery, Redshift, S3, Azure Blob, Salesforce, HubSpot, Shopify, REST API, SFTP, flat files) Core Platform Included: SemantIQ (schema discovery + enrichment), ADL, ConverseDataIQ, ConverseSQL LLM: Public LLM (shared) Support: Standard (24h SLA, email + chat) Includes: Guided onboarding *Note: Professional Edition supports Public LLMs only.*	$1,399/mo	$1,119/mo	**$999/mo**
UDP.DP.SL.PROF. ADDL_CONN	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Data Connection/Mon (beyond 15 included) Includes: Source or target connection, auto-discovery, scheduling, monitoring	$80/mo	$64/mo	**$56/mo**
UDP.DP.SL.PROF. ADDL_USER	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional User/Mon (beyond 5 included) Users: Full access to NL pipeline design, visual builder, monitoring, transformation library	$120/mo	$96/mo	**$85/mo**
UDP.DP.SL.PROF. ADDL_PIPELINE	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Active Pipelines (+25 pipelines)	$75/mo	$60/mo	**$55/mo**
UDP.DP.SL.PROF. ADDL_RUNS	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Pipeline Run Block (+2,500 runs/month) *Note: Each pipeline run = one execution of a defined pipeline (manual or scheduled)*	$100/mo	$80/mo	**$70/mo**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.PROF.ADDL_AI	**xAQUA Composer** **Subscription: Professional** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional AI Task Block (+1,000 tasks/month) Includes: NL pipeline design, SQL/Python code generation, pipeline optimization suggestions	$100/mo	$80/mo	**$70/mo**

xAQUA Composer — Enterprise Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.ENT	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Deployment: SaaS (Multi-tenant or Dedicated Cloud) No-Code Dual Interface — No engineers required: All Professional Capabilities Plus: • Event-driven pipeline triggering — webhook, API, file arrival, database change (CDC) triggers • Advanced orchestration — multi-pipeline DAGs, parallel execution, conditional branching • Data lineage — full end-to-end lineage visualization from source through transformations to target (SemantIQ) • Pipeline observability — real-time monitoring, anomaly detection on data volumes/latency, SLA alerting • Environment management — dev/staging/production promotion with approval workflows • API access — programmatic pipeline management, triggering, status retrieval • Custom connectors — build custom source/target connectors via SDK • Streaming/near-real-time ingestion (Kafka, Event Hubs, Kinesis) • SSO (Azure AD / Okta) + Custom RBAC • Audit trail — full execution history with data lineage and compliance logging Usage Allocations: Data Connections (sources + targets): Up to 50 Active Pipelines: Up to 500 Pipeline Runs: Up to 50,000/month (fair use) AI Tasks/Month: Up to 10,000 (fair use) Users: Up to 25 Pre-Built Connectors: 100+ (all Professional connectors + streaming sources, enterprise SaaS, mainframe, legacy DB) Core Platform Included: SemantIQ, ADL, ConverseDataIQ, ConverseSQL LLM: Public LLM (shared) or Hybrid (dedicated instance add-on) Support: Priority (4h SLA, dedicated CSM, QBRs) *Note: Annual contract required. Pipeline runs and AI tasks follow fair-use model — alerts at 80%, billing at sustained 150%+ for 2 consecutive periods.*	$3,200/mo	$2,560/mo	**$2,250/mo**
UDP.DP.SL.ENT.ADDL_CONN	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Data Connection/Mon (beyond 50 included)	$60/mo	$48/mo	**$42/mo**
UDP.DP.SL.ENT.ADDL_USER	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional User/Mon (beyond 25 included)	$85/mo	$68/mo	**$60/mo**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.ENT.ADDL_PIPELINE	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Active Pipelines (+100 pipelines)	$200/mo	$160/mo	**$140/mo**
UDP.DP.SL.ENT.ADDL_RUNS	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional Pipeline Run Block (+10,000 runs/month) *Note: Fair-use model — overage billing only at sustained 150%+ for 2 consecutive periods*	$300/mo	$240/mo	**$210/mo**
UDP.DP.SL.ENT.ADDL_AI	**xAQUA Composer** **Subscription: Enterprise** **No-Code Data Pipeline Automation (DPA) Platform** Cost for Additional AI Task Block (+5,000 tasks/month)	$350/mo	$280/mo	**$245/mo**

xAQUA Composer — Enterprise Add-Ons

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.ENT.HYBRID_LLM	**xAQUA Composer** **Subscription: Enterprise Add-On** **Hybrid LLM (Dedicated Instance)** Dedicated GPT-OSS 120B instance on xAQUA-managed cloud infrastructure. Single-tenant LLM with no data co-mingling for NL pipeline design, SQL/Python generation, and pipeline optimization. Customer data never leaves dedicated compute boundary. Prerequisite: UDP.DP.SL.ENT base subscription	$3,500/mo	$2,800/mo	**$2,500/mo**
UDP.DP.SL.ENT.STREAMING_PACK	**xAQUA Composer** **Subscription: Enterprise Add-On** **Real-Time Streaming Pack** Advanced streaming and near-real-time ingestion capabilities: • Kafka, Azure Event Hubs, AWS Kinesis, Google Pub/Sub native connectors • Stream processing transformations (filter, aggregate, enrich, window functions) • Exactly-once delivery guarantees • Stream-to-batch bridge — land streaming data into batch pipelines • Real-time monitoring with latency and throughput metrics • Dead letter queue management for failed events Prerequisite: UDP.DP.SL.ENT base subscription	$1,200/mo	$960/mo	**$850/mo**
UDP.DP.SL.ENT.OBSERVABILITY_PACK	**xAQUA Composer** **Subscription: Enterprise Add-On** **Pipeline Observability & Intelligence Pack** Advanced monitoring, anomaly detection, and optimization capabilities: • AI-powered pipeline anomaly detection (volume drift, latency spikes, schema changes) • Predictive failure alerts — warn before pipeline breaks based on pattern analysis • Performance optimization suggestions via LLM (identify bottlenecks, recommend partitioning) • Cost attribution — track compute cost per pipeline per data source • SLA management with automated escalation • Executive pipeline health dashboard with trend analysis Prerequisite: UDP.DP.SL.ENT base subscription	$800/mo	$640/mo	**$560/mo**

xAQUA Composer — Enterprise Plus Tier (Dedicated Deployment)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.DP.SL.ENTPL US.LICENSE	**xAQUA Composer** **Subscription: Enterprise Plus** **No-Code Data Pipeline Automation (DPA) Platform — Platform License** Deployment: Dedicated VPC / Airgapped / On-premises No-Code Dual Interface — No engineers required: All Enterprise Capabilities Plus: • Unlimited data connections, active pipelines, pipeline runs, and AI tasks • Real-Time Streaming Pack included • Pipeline Observability & Intelligence Pack included • Multi-environment orchestration (dev/staging/prod across regions) • Custom connector SDK with full source/target development framework • Mainframe and legacy system connectors (COBOL copybooks, IMS, VSAM) • Data mesh support — domain-owned pipelines with federated governance • Git-based pipeline CI/CD integration (GitHub, GitLab, Bitbucket) • Custom identity provider (Keycloak) • Full API access for pipeline lifecycle automation • BYOL support for private LLM powering all NL capabilities • Fully airgapped operation — no data leaves deployment boundary Usage Allocations: Data Connections: Unlimited (contract-defined) Active Pipelines: Unlimited Pipeline Runs: Unlimited (infrastructure-bound) AI Tasks/Month: Unlimited (infrastructure-bound) Users: Unlimited (contract-defined) Pre-Built Connectors: 150+ (all Enterprise connectors + mainframe, legacy, custom) Core Platform Included: SemantIQ, ADL, ConverseDataIQ, ConverseSQL (all unlimited) LLM: Bring Your Own LLM (BYOL) — Public or Private Support: Dedicated TAM (1h critical SLA), QBRs, on-site support available *Note: All pricing custom and negotiated. Annual contract required.*	$200,000/yr	$160,000/yr	**$140,000/yr**
UDP.DP.SL.ENTPL US.GPU	**xAQUA Composer** **Subscription: Enterprise Plus** **Private LLM Infrastructure — GPU Compute** Dedicated GPU compute for private LLM deployment powering NL pipeline design, SQL/Python generation, pipeline optimization, and anomaly detection. Pass-through infrastructure cost. Deployed within customer VPC. Prerequisite: UDP.DP.SL.ENTPLUS.LICENSE GPU Infrastructure/Year: $96,000 – $180,000 (Pass-through — based on provisioned hardware)	$15,000/mo	$15,000/mo	**$15,000/mo**
UDP.DP.SL.ENTPL US.DEPLOY	**xAQUA Composer** **Subscription: Enterprise Plus** **Deployment & Configuration — One-Time Setup** Includes: VPC/on-premises deployment, identity provider integration, data source/target connectivity, pipeline migration from existing ETL tools (Informatica, SSIS, Talend), custom connector development, CI/CD integration, training and enablement. Prerequisite: UDP.DP.SL.ENTPLUS.LICENSE (Scoped per Statement of Work)	$100,000 (one-time)	$80,000 (one-time)	**$70,000 (one-time)**

xAQUA RAGConvo

xAQUA RAGConvo — Starter Tier (Self-Service)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.RAGC.SL.ST	**xAQUA RAGConvo** **Subscription: Starter** **RAG-Powered Conversational AI for Unstructured Data** Deployment: SaaS Only (Multi-tenant) No-Code Conversational Intelligence — Chat with your documents: • No-code vectorization pipeline — upload documents, RAGConvo auto-processes and indexes • Supported formats: PDF, Word (.docx), text files, Markdown • RAG-powered chat with citation/source attribution (answer + source document + passage highlighted) • Conversation history with search • Basic chunking strategy (fixed-size with overlap) Usage Allocations: Knowledge Bases: 1 (a distinct document collection with its own vector store) Chat Messages: Up to 1,000/month Vectorized Storage: Up to 5 GB (raw document input volume) Documents per Knowledge Base: Up to 100 Max File Size: 50 MB per document Users: Up to 3 LLM: Public LLMs — platform-managed (latest generation models from OpenAI, Google, Anthropic) Core Platform Included: SemantIQ (semantic enrichment of vector store), ConverseDataIQ (structured data complement) Support: Community + documentation only *Note: Starter Edition — single Knowledge Base, public LLMs only. No OCR for scanned documents. Upgrade to Professional for multi-KB, OCR, and advanced features.*	$99/mo	$79/mo	**$69/mo**
UDP.RAGC.SL.ST.ADDL_CHATS	**xAQUA RAGConvo** **Subscription: Starter** **RAG-Powered Conversational AI for Unstructured Data** Cost for Additional Chat Message Block (+500 messages/month) *Note: Each chat message = one RAG retrieval + LLM generation cycle*	$20/mo	$16/mo	**$14/mo**
UDP.RAGC.SL.ST.ADDL_STORAGE	**xAQUA RAGConvo** **Subscription: Starter** **RAG-Powered Conversational AI for Unstructured Data** Cost for Additional Vectorized Storage (+5 GB raw document input) *Note: Storage measured in raw document input volume. Vector expansion handled by platform.*	$15/mo	$12/mo	**$10/mo**

xAQUA RAGConvo — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

UDP.RAGC.SL.PROF	**xAQUA RAGConvo** **Subscription: Professional** **RAG-Powered Conversational AI for Unstructured Data** Deployment: SaaS Only (Multi-tenant) No-Code Conversational Intelligence — Chat with your documents: All Starter Capabilities Plus: • Multiple Knowledge Bases — organize documents into separate collections with independent access • OCR for scanned PDFs — extract text from scanned documents, images, and legacy archives • Extended format support: PDF, Word, Excel, PowerPoint, HTML, CSV, images (with OCR), email (.eml/.msg) • Advanced chunking strategies — semantic chunking, paragraph-aware, table-aware, configurable overlap • Citation with page numbers and passage highlighting • Cross-Knowledge Base search — query across multiple KBs in a single conversation • Conversation sharing and export (PDF, Markdown) • Custom system prompts per Knowledge Base (tone, focus area, audience) • Vectorization pipeline scheduling — auto-re-index on document updates • Document management — upload, replace, delete, version tracking Usage Allocations: Knowledge Bases: Up to 5 Chat Messages: Up to 10,000/month Vectorized Storage: Up to 50 GB (raw document input) Documents per Knowledge Base: Up to 500 Max File Size: 200 MB per document Users: Up to 5 Vectorization Pipeline Runs: Up to 100/month (re-indexing jobs) LLM: Public LLMs — platform-managed (latest generation models from OpenAI, Google, Anthropic) Core Platform Included: SemantIQ, ConverseDataIQ, ConverseSQL Support: Standard (24h SLA, email + chat) Includes: Guided onboarding *Note: Professional Edition supports Public LLMs only.*	$599/mo	$479/mo	**$425/mo**
UDP.RAGC.SL.PROF.ADDL_KB	**xAQUA RAGConvo** **Subscription: Professional** **RAG-Powered Conversational AI for Unstructured Data** Cost for Additional Knowledge Base/Mon (beyond 5 included) Includes: Independent vector store, document management, custom system prompt, access controls	$80/mo	$64/mo	**$56/mo**
UDP.RAGC.SL.PROF.ADDL_USER	**xAQUA RAGConvo** **Subscription: Professional** **RAG-Powered Conversational AI for Unstructured Data** Cost for Additional User/Mon (beyond 5 included) Users: Full access to chat, upload documents, manage Knowledge Bases, export conversations	$60/mo	$48/mo	**$42/mo**
UDP.RAGC.SL.PROF.ADDL_CHATS	**xAQUA RAGConvo** **Subscription: Professional** **RAG-Powered Conversational AI for Unstructured Data** Cost for Additional Chat Message Block (+5,000 messages/month)	$80/mo	$64/mo	**$56/mo**

xAQUA RAGConvo — Enterprise Add-Ons

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.RAGC.SL.ENT.HYBRID_LLM	**xAQUA RAGConvo** **Subscription: Enterprise Add-On** **Hybrid LLM (Dedicated Instance)** Dedicated GPT-OSS 120B instance on xAQUA-managed cloud infrastructure. Single-tenant LLM with no data co-mingling for RAG chat generation. Customer documents and conversations never leave dedicated compute boundary. Prerequisite: UDP.RAGC.SL.ENT base subscription	$3,500/mo	$2,800/mo	**$2,500/mo**

| UDP.RAGC.SL.ENT
.ADVANCED_RAG_P
ACK | **xAQUA RAGConvo**
Subscription: Enterprise Add-On
Advanced RAG Intelligence Pack
Enhanced retrieval and generation capabilities:
• Multi-modal RAG — charts, diagrams, and images within documents included in retrieval context
• Agentic RAG — multi-step reasoning with tool use (calculator, web search, structured data lookup via ConverseDataIQ)
• Knowledge Base comparison — compare information across KBs (e.g., policy versions, contract differences)
• Summarization workflows — automated document/KB summarization with configurable depth
• Custom retrieval tuning — per-KB relevance threshold, chunk size, re-ranking model configuration
• Feedback loop — user thumbs up/down on answers feeds back to improve retrieval quality
Prerequisite: UDP.RAGC.SL.ENT base subscription | $800/mo | $640/mo | **$560/mo** |

xAQUA Entity 360

xAQUA Entity 360 — Starter Tier (Proof of Value)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.MDM.SL.ST	**xAQUA Entity 360** **Subscription: Starter** **No-Code Multi-Domain Master Data Management (MDM) with Probabilistic Entity Resolution** Deployment: SaaS Only (Multi-tenant) No-Code Golden Record Management — No engineers required: • Single master entity type (e.g., Customer, Product, Supplier, or Location) • No-code match rule configuration — visual rule builder for defining matching criteria (exact match, fuzzy match, phonetic, distance-based) without writing code • ML-powered probabilistic entity resolution — machine learning-based fuzzy matching across source systems with confidence scoring • Golden record creation with configurable survivorship rules (most recent, most complete, source priority) • Data steward workbench — review potential matches, approve/reject merges, handle exceptions • Visual merge for false negatives — side-by-side record comparison with drag-and-drop field selection to manually merge records missed by probabilistic matching • Basic match/merge dashboard with duplicate detection metrics • Source schema auto-discovery via SemantIQ Usage Allocations: Master Entity Types: 1 Golden Records: Up to 100,000 (post-resolution master entities) Source Connections: Up to 3 Resolution Runs: Up to 30/month (batch matching jobs) Users: Up to 3 (data stewards / administrators) Match/Merge Workflow: Profile → Match → Review → Merge → Golden Record Resolution Mode: Manual stewardship only (no auto-merge) Publishing: Manual export (CSV/JSON) Technology: ML-based probabilistic matching (no LLM/GenAI). Uses statistical and machine learning models for entity resolution including Jaro-Winkler, Levenshtein, Soundex, and trained probabilistic classifiers. Core Platform Included: SemantIQ (source discovery + semantic field mapping) Support: Community + documentation only *Note: Starter Edition — single entity type, manual stewardship. No auto-merge, no API publish. Ideal for proving MDM value with a single domain before scaling.*	$499/mo	$399/mo	**$349/mo**
UDP.MDM.SL.ST.ADDL_RECORDS	**xAQUA Entity 360** **Subscription: Starter** **No-Code Multi-Domain MDM with Probabilistic Entity Resolution** Cost for Additional Golden Records (+50,000 records) *Note: Golden records = post-resolution master entities (deduplicated). Source records are unlimited.*	$100/mo	$80/mo	**$70/mo**
UDP.MDM.SL.ST.ADDL_RUNS	**xAQUA Entity 360** **Subscription: Starter** **No-Code Multi-Domain MDM with Probabilistic Entity Resolution** Cost for Additional Resolution Run Block (+15 runs/month) *Note: Each resolution run = one batch matching job processing source records against match rules*	$40/mo	$32/mo	**$28/mo**

xAQUA Entity 360 — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

UDP.MDM.SL.PROF	**xAQUA Entity 360**	$3,500/mo	$2,800/mo	**$2,450/mo**

Subscription: Professional
No-Code Multi-Domain Master Data Management (MDM) with Probabilistic Entity Resolution
Deployment: SaaS Only (Multi-tenant)
No-Code Golden Record Management — No engineers required:
All Starter Capabilities Plus:
• Multi-domain — up to 2 master entity types (e.g., Customer + Product)
• Auto-merge — high-confidence matches merge automatically; borderline cases route to steward review
• Configurable match thresholds — set confidence levels for auto-merge vs manual review
• Survivorship rules engine — visual rule builder for field-level survivorship (most recent, most complete, source priority, longest value, custom logic)
• Cross-source entity linking — link records across sources with relationship tracking
• Visual merge for false negatives — stewards search for and manually merge records that probabilistic matching missed, with field-level selection
• Visual unmerge for false positives — split incorrectly merged golden records back into separate entities with full audit trail and source record re-assignment
• Data quality pre-match — inline standardization, cleansing, and deduplication (Qualix integration)
• Match rule library — pre-built match rules for common entity types (person name, address, email, phone, company)
• Golden record publishing — batch export (CSV/JSON/API) with change delta tracking
• Scheduled resolution runs — daily, weekly, or on-demand
• Entity 360 dashboard — unified view of a single entity across all sources with lineage
• Merge/split audit trail with full change history
Usage Allocations:
Master Entity Types: Up to 2
Golden Records: Up to 1,000,000 (post-resolution)
Source Connections: Up to 10
Resolution Runs: Up to 100/month (batch matching jobs)
Users: Up to 10 (data stewards, data owners, administrators)
Match/Merge Workflow: Profile → Standardize → Match → Auto-Merge / Steward Review → Survive → Golden Record → Publish
Technology: ML-based probabilistic matching (no LLM/GenAI). Statistical and ML models including Jaro-Winkler, Levenshtein, Soundex, trained probabilistic classifiers, and ensemble methods.
Core Platform Included: SemantIQ (source discovery + semantic field mapping), Qualix (pre-match DQ)
Support: Standard (24h SLA, email + chat)
Includes: Guided onboarding + entity type configuration workshop

No-Code Multi-Domain Master Data Management (MDM) with Probabilistic Entity Resolution

Deployment: SaaS (Multi-tenant or Dedicated Cloud)

No-Code Golden Record Management — No engineers required:

All Professional Capabilities Plus:

• Multi-domain at scale — up to 10 master entity types

• Hierarchy management — parent-child relationships (corporate hierarchies, product taxonomies, household groupings) with visual hierarchy browser

• Cross-entity relationships — link entities across domains (Customer ↔ Product ↔ Supplier)

• Real-time golden record publishing — event-driven publish to downstream systems via API/webhook

• Steward workflow automation — assignment rules, escalation policies, SLA tracking on steward tasks

• Merge simulation — preview merge results before committing ("what-if" analysis with visual diff)

• Advanced visual merge for false negatives — bulk search, filter, and manually merge records missed by probabilistic matching; includes suggested matches with confidence scores below auto-merge threshold

• Advanced visual unmerge for false positives — split incorrectly merged golden records with guided source record re-assignment, downstream impact preview, and automated notification to affected systems

• Multi-source survivorship with field-level override and manual curation

• Entity timeline — historical view of how a golden record evolved over time

• Match analytics — match rate, false positive/negative analysis, confidence distribution

• API access — programmatic entity lookup, match, merge, publish, and steward task management

• SSO (Azure AD / Okta) + Custom RBAC (steward, data owner, viewer, administrator roles)

• SenseMask integration — PII/PHI detection and masking within master records

• Compliance audit trail — every match, merge, split, override logged with user, timestamp, reason

Usage Allocations:

Master Entity Types: Up to 10

Golden Records: Up to 10,000,000 (post-resolution)

Source Connections: Up to 25

Resolution Runs: Up to 500/month

Users: Up to 50 (stewards, data owners, viewers, administrators)

Hierarchy Levels: Up to 10 per entity type

API Calls: Up to 100,000/month

Match/Merge Workflow: Profile → Standardize → Match → Score → Auto-Merge / Steward → Survive → Golden Record → Publish (batch + real-time)

Technology: ML-based probabilistic matching (no LLM/GenAI). Statistical and ML models including

Jaro-Winkler, Levenshtein, Soundex, trained probabilistic classifiers, ensemble methods, and

custom-trained domain-specific models.

Core Platform Included: SemantIQ (source discovery + semantic field mapping), Qualix (pre-match DQ)

Support: Priority (4h SLA, dedicated CSM, QBRs)

Note: Annual contract required. Resolution runs and API calls follow fair-use model — alerts at 80%, billing at sustained 150%+ for 2 consecutive periods.

xAQUA Qualix

xAQUA Qualix — Starter Tier (Self-Service)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.ST	**xAQUA Qualix** **Subscription: Starter** **Enterprise Data Quality Management Platform** Deployment: SaaS Only (Multi-tenant) DAMA Framework: Core data quality dimensions (Completeness, Accuracy, Consistency, Timeliness, Validity, Uniqueness) Data Sources Monitored: Up to 3 DQ Jobs Executed: Up to 500/month DQ Rules Catalog: Up to 50 rules (catalog metrics + custom SQL rules) DQ Projects: Up to 2 Users: Up to 2 Data Profiling: Basic column-level profiling (completeness, distribution, patterns) Rule Authoring: Manual SQL only (ConverseSQL not available) Job Scheduling: Manual execution only Reporting: Basic DQ scorecard (manual export, PDF/CSV) Dashboard: Summary quality scores by source and dimension Metrics History: 30-day retention Support: Community + documentation only *Note: Starter Edition does not include AI/LLM capabilities. Rule authoring is SQL-only. Upgrade to Professional for ConverseSQL and scheduled jobs.*	$99/mo	$79/mo	**$75/mo**
UDP.QLX.ST.ADDL_DS	**xAQUA Qualix** **Subscription: Starter** **Enterprise Data Quality Management Platform** Cost for Additional Data Source/Mon (beyond 3 included) Includes: Connection configuration, basic profiling, rule assignment	$35/mo	$28/mo	**$25/mo**
UDP.QLX.ST.ADDL_JOBS	**xAQUA Qualix** **Subscription: Starter** **Enterprise Data Quality Management Platform** Cost for Additional DQ Job Execution Block (+500 jobs/month) *Note: Each job execution = one run of a rule set against a data source*	$40/mo	$32/mo	**$30/mo**

xAQUA Qualix — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

Code	Description			
UDP.QLX.PROF	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Deployment: SaaS Only (Multi-tenant) DAMA Framework: All 6 core dimensions + cross-source referential integrity + business rule validation Data Sources Monitored: Up to 10 DQ Jobs Executed: Up to 5,000/month DQ Rules Catalog: Up to 500 rules (catalog metrics + custom SQL rules) DQ Projects: Up to 10 Users: Up to 10 Data Profiling: Full column-level + table-level profiling (completeness, distribution, patterns, relationships, outliers) Rule Authoring: Manual SQL + ConverseSQL AI-assisted rule generation (up to 100 AI-generated rules/month) Job Scheduling: Daily scheduling with email/webhook notifications Reporting: DQ scorecards, trend reports, project-level reports (scheduled PDF/CSV/XLSX export) Dashboard: Quality scores by source, dimension, project, and rule category with trend visualization Metrics History: 90-day retention Support: Standard (24h SLA, email + chat) *Note: Professional Edition supports Public LLMs only for ConverseSQL. Includes guided onboarding.*	$1,200/mo	$960/mo	**$850/mo**
UDP.QLX.PROF.ADDL_DS	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional Data Source/Mon (beyond 10 included) Includes: Connection configuration, full profiling, rule assignment, job scheduling	$100/mo	$80/mo	**$70/mo**
UDP.QLX.PROF.ADDL_USER	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional User/Mon (beyond 10 included)	$50/mo	$40/mo	**$35/mo**
UDP.QLX.PROF.ADDL_JOBS	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional DQ Job Execution Block (+2,500 jobs/month)	$150/mo	$120/mo	**$105/mo**
UDP.QLX.PROF.ADDL_RULES	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional Rules Catalog Capacity (+100 rules) Includes: Catalog metrics + custom SQL rules	$75/mon	$60/mon	**$55/mon**
UDP.QLX.PROF.ADDL_PROJECT	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional DQ Project (+1 project) Includes: Project workspace, rule assignment, reporting, stakeholder tracking	$80/mo	$64/mo	**$56/mo**
UDP.QLX.PROF.ADDL_AI_RULES	**xAQUA Qualix** **Subscription: Professional** **Enterprise Data Quality Management Platform** Cost for Additional AI-Assisted Rule Generation Block (+50 ConverseSQL generations/month) *Note: Each AI-assisted generation = one ConverseSQL interaction producing a DQ rule*	$60/mo	$48/mo	**$42/mo**

xAQUA Qualix — Enterprise Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.ENT	**xAQUA Qualix** **Subscription: Enterprise** **Enterprise Data Quality Management Platform** Deployment: SaaS (Multi-tenant or Dedicated Cloud) DAMA Framework: All 6 core dimensions + cross-source referential integrity + business rule validation + lineage-aware quality scoring Data Sources Monitored: Up to 50 DQ Jobs Executed: Up to 50,000/month DQ Rules Catalog: Unlimited rules (catalog metrics + custom SQL rules + AI-generated rules) DQ Projects: Unlimited Users: Up to 50 Data Profiling: Full column/table/cross-source profiling + anomaly detection + pattern recognition Rule Authoring: Manual SQL + ConverseSQL AI-assisted rule generation (up to 1,000/month) + rule recommendation engine Job Scheduling: Hourly scheduling with email/webhook/Slack notifications + priority queue + dependency chains Reporting: Full reporting suite — DQ scorecards, trend reports, project reports, executive summaries, DAMA dimension reports, SLA compliance reports (scheduled + API export) Dashboard: Enterprise dashboard — quality scores by source, dimension, project, department, rule category with trend visualization, drill-down, alerting, and custom views Metrics History: 1-year retention Metrics Tracking: Historical trend tracking across all dimensions with configurable thresholds, alerting on degradation, automated root cause suggestion API Access: Full REST API for programmatic rule management, job triggering, score retrieval, and integration with CI/CD pipelines Support: Priority (4h SLA, dedicated CSM, QBRs) Includes: Custom RBAC, SSO (Azure AD/Okta), data steward workflows, approval chains *Note: Annual contract required. Includes assisted onboarding and configuration.*	$4,500/mo	$3,600/mo	**$3,200/mo**
UDP.QLX.ENT.ADD L_DS	**xAQUA Qualix** **Subscription: Enterprise** **Enterprise Data Quality Management Platform** Cost for Additional Data Source/Mon (beyond 50 included) Includes: Connection configuration, full profiling, rule assignment, scheduling, anomaly detection	$75/mo	$60/mo	**$55/mo**
UDP.QLX.ENT.ADD L_USER	**xAQUA Qualix** **Subscription: Enterprise** **Enterprise Data Quality Management Platform** Cost for Additional User/Mon (beyond 50 included)	$40/mo	$32/mo	**$28/mo**
UDP.QLX.ENT.ADD L_JOBS	**xAQUA Qualix** **Subscription: Enterprise** **Enterprise Data Quality Management Platform** Cost for Additional DQ Job Execution Block (+10,000 jobs/month)	$400/mo	$320/mo	**$280/mo**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.ENT.ADDL_AI_RULES	**xAQUA Qualix** **Subscription: Enterprise** **Enterprise Data Quality Management Platform** Cost for Additional AI-Assisted Rule Generation Block (+500 ConverseSQL generations/month) Includes: ConverseSQL rule generation + rule recommendation engine queries	$250/mo	$200/mo	**$175/mo**

xAQUA Qualix — Enterprise Add-Ons

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.ENT.HYBRID_LLM	**xAQUA Qualix** **Subscription: Enterprise Add-On** **Hybrid LLM (Dedicated Instance)** Dedicated GPT-OSS 120B instance on xAQUA-managed cloud infrastructure. Single-tenant LLM with no data co-mingling for ConverseSQL and AI-assisted rule generation. Customer data never leaves dedicated compute boundary. Prerequisite: UDP.QLX.ENT base subscription	$3,500/mo	$2,800/mo	**$2,500/mo**
UDP.QLX.ENT.ANOMALY_PACK	**xAQUA Qualix** **Subscription: Enterprise Add-On** **Advanced Anomaly Detection Pack** ML-powered anomaly detection across all monitored data sources: • Automated anomaly scoring on all DQ job results • Time-series anomaly detection on quality metrics • Pattern drift detection (schema changes, distribution shifts, volume anomalies) • Root cause analysis suggestions via LLM • Anomaly-triggered alerting and workflow integration • Custom anomaly model training on historical quality patterns Prerequisite: UDP.QLX.ENT base subscription	$1,200/mo	$960/mo	**$850/mo**
UDP.QLX.ENT.REMEDIATION_PACK	**xAQUA Qualix** **Subscription: Enterprise Add-On** **Data Remediation & Cleansing Pack** Automated and AI-assisted data remediation capabilities: • AI-suggested fix recommendations for detected quality issues • Bulk data cleansing workflows with approval gates • Standardization rules (address, name, date format normalization) • Deduplication with configurable match/merge logic • Remediation audit trail with before/after snapshots • Remediation impact scoring (estimated quality improvement) Prerequisite: UDP.QLX.ENT base subscription	$1,500/mo	$1,200/mo	**$1,050/mo**

xAQUA Qualix — Enterprise Plus Tier (Dedicated Deployment)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.ENTPLUS.LICENSE	**xAQUA Qualix** **Subscription: Enterprise Plus** **Enterprise Data Quality Management Platform — Platform License** Deployment: Dedicated VPC / Airgapped / On-premises DAMA Framework: Full DAMA DMBOK2 alignment across all 6 core dimensions + extended quality characteristics Data Sources Monitored: Unlimited (contract-defined) DQ Jobs Executed: Unlimited (infrastructure-bound) DQ Rules Catalog: Unlimited (catalog metrics + custom SQL + AI-generated + custom ML models) DQ Projects: Unlimited Users: Unlimited (contract-defined) Data Profiling: Full profiling suite + cross-source lineage-aware quality scoring + custom profiling models Rule Authoring: Manual SQL + ConverseSQL (unlimited) + rule recommendation engine + custom ML rule models Job Scheduling: Real-time event-driven + scheduled + dependency chains + priority queue Reporting: Full suite + custom report templates + executive board reports + regulatory compliance reports Dashboard: Fully customizable + white-label option + embedded analytics Metrics History: Custom retention (contract-defined) Anomaly Detection: Included (full anomaly pack) Data Remediation: Included (full remediation pack) LLM: Bring Your Own LLM (BYOL) — Public or Private Support: Dedicated TAM (1h critical SLA), QBRs, on-site support available Includes: Custom RBAC, custom identity provider (Keycloak), API access, white-label, full customization *Note: All pricing custom and negotiated. Annual contract required.* (Custom — negotiated per contract)	$250,000/yr	$200,000/yr	**$175,000/yr**
UDP.QLX.ENTPLUS.GPU	**xAQUA Qualix** **Subscription: Enterprise Plus** **Private LLM Infrastructure — GPU Compute** Dedicated GPU compute for private LLM deployment powering ConverseSQL, AI rule generation, anomaly detection, and remediation recommendations. Pass-through infrastructure cost. Deployed within customer VPC. Prerequisite: UDP.QLX.ENTPLUS.LICENSE (Pass-through — based on provisioned hardware) GPU Infrastructure/Year: $96,000 – $180,000	$15,000/mo	$15,000/mo	**$15,000/mo**
UDP.QLX.ENTPLUS.DEPLOY	**xAQUA Qualix** **Subscription: Enterprise Plus** **Deployment & Configuration — One-Time Setup** Includes: VPC/on-premises deployment, identity provider integration (Azure AD, Okta, Keycloak), data source connectivity configuration, initial profiling and rule setup, DAMA framework customization, custom dashboard configuration, training and enablement. Prerequisite: UDP.QLX.ENTPLUS.LICENSE (Scoped per Statement of Work)	$100,000 (one-time)	$80,000 (one-time)	**$70,000 (one-time)**

xAQUA Qualix — Professional Services (Labor Rates)

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

`UDP.QLX.IMP.SPM`	**xAQUA Qualix** Job Title: Senior Project Manager Job Description: Oversees large-scale Qualix data quality program implementations, providing leadership and strategic direction for enterprise-wide DQ initiatives, stakeholder engagement, and risk management. Minimum Education: B.A. or B.S. degree in related field Years of Experience: 7	$350.00/hr	—	**$250.00/hr**
`UDP.QLX.IMP.SDE`	**xAQUA Qualix** Job Title: Senior Data Engineer Job Description: Leads data source integration, profiling pipeline configuration, and DQ job infrastructure design for Qualix deployments. Designs data quality architectures and mentors junior engineers. Minimum Education: B.A. or B.S. degree in related field Years of Experience: 7	$350.00/hr	—	**$250.00/hr**
`UDP.QLX.IMP.DA`	**xAQUA Qualix** Job Title: Data Quality Analyst Job Description: Configures and maintains data quality rules, manages DQ projects, analyzes quality metrics, and produces reports within Qualix to support data-driven decision-making across business functions. Minimum Education: B.A. or B.S. degree in related field Years of Experience: 5	$280.00/hr	—	**$200.00/hr**
`UDP.QLX.IMP.SDA`	**xAQUA Qualix** Job Title: Senior Data Quality Analyst Job Description: Leads DQ program strategy, designs enterprise-wide rule frameworks aligned to DAMA principles, conducts complex cross-source quality analyses, and provides guidance to junior analysts. Minimum Education: B.A. or B.S. degree in related field Years of Experience: 7	$350.00/hr	—	**$250.00/hr**
`UDP.QLX.IMP.SME _I`	**xAQUA Qualix** Job Title: Subject Matter Expert I Job Description: The Subject Matter Expert I provides specialized domain knowledge and hands-on expertise across xAQUA Qualix engagements, including data engineering, data quality management, analytics, data governance, database administration, cloud infrastructure, or industry-specific domains. The SME I contributes to solution design, data source assessment, rule framework development, quality baseline establishment, testing, and stakeholder workshops, applying practical experience to ensure deliverables align with organizational data quality standards and DAMA best practices. Minimum Education: B.A. or B.S. degree in related field Years of Experience: 5	$280.00/hr	—	**$200.00/hr**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.QLX.IMP.SME_II	**xAQUA Qualix** Job Title: Senior Subject Matter Expert II Job Description: The Senior Subject Matter Expert II provides authoritative domain expertise and strategic guidance across xAQUA Qualix engagements, including enterprise data quality strategy, DAMA DMBOK2 framework implementation, data governance program design, regulatory compliance quality requirements, and industry-specific quality standards. The SME II leads discovery sessions, validates complex DQ architectures, advises on enterprise data quality maturity models, defines quality SLAs, mentors project team members, and serves as a trusted advisor to client leadership on data quality program transformation. Capable of operating independently across multiple workstreams and translating complex data quality requirements into actionable implementation plans. Minimum Education: B.A. or B.S. degree in related field; relevant professional certification preferred (e.g., CDMP, CDQP, DGSP, or domain equivalent) Years of Experience: 7	$350.00/hr	—	**$250.00/hr**

	Note: One prediction = one row scored. Batch file with 5,000 rows = 5,000 predictions.
		$20/mo	$16/mo	**$14/mo**

`UDP.MLAPP.SL.ST` `.ADDL_STORAGE`	**xAQUA ClickML** **Subscription: Starter** **No-Code Machine Learning Platform** Cost for Additional Data Storage (+5 GB) *Note: Covers training datasets, model artifacts, and prediction results.*	$10/mo	$8/mo	**$7/mo**

xAQUA ClickML — Professional Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.MLAPP.SL.PROF	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform — Model Lifecycle, Deployment & Predictions** Deployment: SaaS Only (Multi-tenant) No-Code ML — Build, train, and deploy ML models without writing code: All Starter Capabilities Plus: • Multiple deployed models — serve predictions from up to 10 active endpoints • Extended model types: + Clustering, Anomaly Detection, Recommendation • Advanced AutoML — ensemble methods, stacking, blending with automatic model comparison • Feature store — reusable feature definitions shared across models and experiments • Experiment tracking — log hyperparameters, metrics, and artifacts per training run; side-by-side comparison of model versions with visual performance charts • Model registry — version control for trained models with staging/production lifecycle • Scheduled predictions — run batch scoring on daily, weekly, or custom schedules • Real-time prediction API — REST endpoint for single-record inference (<200ms) • Model explainability — feature importance rankings, SHAP values for individual predictions • Data quality validation — pre-training data profiling with warnings (Qualix integration) • Prediction output routing — send results back to Reeve as a new data product Usage Allocations: Deployed Models: Up to 10 (active endpoints) Training Jobs: Up to 100/month Predictions: Up to 250,000/month (batch + real-time combined) Data Storage: Up to 50 GB (training datasets + model artifacts) Users: Up to 10 Real-Time API Calls: Up to 50,000/month (subset of prediction allocation) Algorithms: All Starter + XGBoost, LightGBM, CatBoost, K-Means, DBSCAN, Isolation Forest, Prophet, Collaborative Filtering Technology: Traditional ML (no LLM/GenAI). Standard compute infrastructure. Core Platform Included: Reeve data product connector, Qualix (pre-training DQ) Support: Standard (24h SLA, email + chat) Includes: Guided onboarding + first model configuration workshop	$1,399/mo	$1,119/mo	**$979/mo**
UDP.MLAPP.SL.PROF.ADDL_MODEL	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform** Cost for Additional Deployed Model/Mon (beyond 10 included) *Note: A deployed model = one active endpoint serving predictions. Trained model versions are unlimited — only active deployments are metered. Deactivate a model to free a slot.*	$80/mo	$64/mo	**$56/mo**
UDP.MLAPP.SL.PROF.ADDL_TRAINING	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform** Cost for Additional Training Job Block (+50 jobs/month)	$100/mo	$80/mo	**$70/mo**

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.MLAPP.SL.PROF.ADDL_PREDICTIONS	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform** Cost for Additional Prediction Block (+100,000 predictions/month) *Note: Covers both batch and real-time predictions combined.*	$60/mo	$48/mo	**$42/mo**
UDP.MLAPP.SL.PROF.ADDL_USER	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform** Cost for Additional User/Mon (beyond 10 included) Users: Access to model builder, experiment tracking, predictions, feature store	$80/mo	$64/mo	**$56/mo**
UDP.MLAPP.SL.PROF.ADDL_STORAGE	**xAQUA ClickML** **Subscription: Professional** **No-Code Machine Learning Platform** Cost for Additional Data Storage (+25 GB)	$30/mo	$24/mo	**$21/mo**

xAQUA ClickML — Enterprise Tier

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price

| `UDP.MLAPP.SL.ENT` | **xAQUA ClickML**
Subscription: Enterprise
No-Code Machine Learning Platform — Model Lifecycle, Deployment & Predictions
Deployment: SaaS (Multi-tenant or Dedicated Cloud)
No-Code ML — Build, train, and deploy ML models without writing code:
All Professional Capabilities Plus: | $3,500/mo | $2,800/mo | **$2,450/mo** |

No-Code ML — Build, train, and deploy ML models without writing code:
All Professional Capabilities Plus:
• Large-scale deployment — up to 50 active model endpoints
• Extended model types: + Deep Learning (neural networks), custom algorithm import
• Custom code blocks — inject Python/R code into no-code pipelines for advanced transformations
• Model monitoring — data drift detection, prediction drift alerts, performance degradation monitoring
• Automated retraining triggers — retrain models when drift exceeds configurable thresholds
• A/B model testing — route prediction traffic between model versions to compare live performance
• Champion/challenger deployment — promote new model only when it outperforms current production model
• Advanced explainability — SHAP waterfall plots, partial dependence, what-if analysis
• Model governance — approval workflows for model promotion (dev → staging → production)
• Prediction audit trail — every prediction logged with input features, model version, confidence, timestamp
• API management — API keys, rate limiting, versioned endpoints, usage analytics
• SSO (Azure AD / Okta) + Custom RBAC (data scientist, model reviewer, viewer, administrator roles)
• SenseMask integration — PII/PHI detection in training data and prediction outputs
Usage Allocations:
Deployed Models: Up to 50 (active endpoints)
Training Jobs: Up to 500/month
Predictions: Up to 2,000,000/month (batch + real-time combined, fair use)
Data Storage: Up to 500 GB
Users: Up to 50
Real-Time API Calls: Up to 500,000/month (subset of prediction allocation)
Algorithms: All Professional + TensorFlow/Keras (visual network builder), custom scikit-learn pipelines, custom Python/R model import
Technology: Traditional ML (no LLM/GenAI). Standard compute + optional GPU for deep learning.
Core Platform Included: Reeve data product connector, Qualix (pre-training DQ)
Support: Priority (4h SLA, dedicated CSM, QBRs)
Note: Annual contract required. Predictions follow fair-use model — alerts at 80%, billing at sustained 150%+ for 2 consecutive periods.

xAQUA ClickML — Enterprise Add-Ons

SKU #	Item / Description	MSRP / List	GSA Price	SLP Price
UDP.MLAPP.SL.ENT.GPU_COMPUTE_PACK	**xAQUA ClickML** **Subscription: Enterprise Add-On** **GPU Compute Pack for Deep Learning** Dedicated GPU compute for training deep learning models (neural networks, CNNs, RNNs, transformers for tabular data). Enables TensorFlow/Keras and PyTorch model training within ClickML. • Shared GPU cluster for training jobs (not dedicated — jobs queued and scheduled) • Up to 100 GPU-hours/month included • Priority scheduling during off-peak hours Prerequisite: UDP.MLAPP.SL.ENT base subscription *Note: Standard ML algorithms (XGBoost, Random Forest, etc.) do not require GPU. This pack is only* needed for deep learning model types.	$800/mo	$640/mo	**$560/mo**
UDP.MLAPP.SL.ENT.MONITORING_PACK	**xAQUA ClickML** **Subscription: Enterprise Add-On** **Advanced Model Monitoring & MLOps Pack** Production model monitoring and operational intelligence: • Data drift detection — statistical monitoring of input feature distributions vs training baseline • Prediction drift alerts — detect when model output distribution shifts unexpectedly • Performance degradation monitoring — track accuracy/precision/recall over time against ground truth • Automated retraining pipelines — trigger retrain when drift exceeds configurable thresholds • Model health dashboard — consolidated view of all deployed model status, alerts, and SLAs • Custom alerting — email, webhook, and Slack notifications on model events Prerequisite: UDP.MLAPP.SL.ENT base subscription	$600/mo	$480/mo	**$420/mo**

xAQUA ClickML — Enterprise Plus Tier (Dedicated Deployment)

UDP.MLAPP.SL.ENTPLUS.LICENSE	**xAQUA ClickML** **Subscription: Enterprise Plus** **No-Code Machine Learning Platform — Platform License**	$200,000/yr	$160,000/yr	**$140,000/yr**

UDP.MLAPP.SL.ENTPLUS.LICENSE

xAQUA ClickML
Subscription: Enterprise Plus
No-Code Machine Learning Platform — Platform License
Deployment: Dedicated VPC / Airgapped / On-premises
No-Code ML — Build, train, and deploy ML models without writing code:
All Enterprise Capabilities Plus:
• Unlimited deployed models, training jobs, predictions, storage, and users
• GPU Compute Pack included
• Advanced Model Monitoring & MLOps Pack included
• Dedicated compute — isolated training and inference infrastructure
• Custom model import — bring pre-trained models (ONNX, PMML, pickle, joblib) into the platform
• Model serving autoscaling — prediction endpoints scale based on demand
• Multi-environment promotion — dev → staging → production with gated approvals and rollback
• CI/CD integration — model deployment via Git-triggered pipelines
• Federated model training — train across distributed datasets without centralizing data
• Compliance mode — full prediction audit logging, model lineage, regulatory reporting
• Custom identity provider (Keycloak)
• Full API access for ML lifecycle automation
• Fully airgapped operation — no data leaves deployment boundary
Usage Allocations:
Deployed Models: Unlimited (contract-defined)
Training Jobs: Unlimited (infrastructure-bound)
Predictions: Unlimited (infrastructure-bound)
Data Storage: Unlimited (contract-defined)
Users: Unlimited (contract-defined)
Technology: Traditional ML (no LLM/GenAI). Dedicated compute infrastructure.
Core Platform Included: Reeve data product connector, Qualix (all unlimited)
Support: Dedicated TAM (1h critical SLA), QBRs, on-site support available
Note: All pricing custom and negotiated. Annual contract required.
(Custom — negotiated per contract)

$200,000/yr $160,000/yr   **$140,000/yr**

UDP.MLAPP.SL.ENTPLUS.GPU

xAQUA ClickML
Subscription: Enterprise Plus
Dedicated GPU Infrastructure
Dedicated GPU compute for deep learning model training and high-throughput inference.
Pass-through infrastructure cost. Deployed within customer VPC.
Prerequisite: UDP.MLAPP.SL.ENTPLUS.LICENSE
(Pass-through — based on provisioned hardware)
GPU Infrastructure/Year: $60,000 – $144,000

$12,000/mo $12,000/mo   **$12,000/mo**

UDP.MLAPP.SL.ENTPLUS.DEPLOY

xAQUA ClickML
Subscription: Enterprise Plus
Deployment & Configuration — One-Time Setup
Includes: VPC/on-premises deployment, identity provider integration, data source connectivity, model environment configuration (dev/staging/prod), CI/CD pipeline setup, monitoring and alerting configuration, feature store setup, Reeve/Qualix integration, training and enablement.
Prerequisite: UDP.MLAPP.SL.ENTPLUS.LICENSE
(Scoped per Statement of Work)

$80,000 (one-time) $64,000 (one-time)   **$56,000 (one-time)**

Pricing Notes & Terms

• **SLP (Schedule for Listing Price):** The SLP price is the authorized reseller Not-to-Exceed rate. Resellers may bill below the SLP rate but may not exceed it without written approval from xAQUA.

• **GSA Price:** The General Services Administration contract price applicable to qualifying federal government purchases.

• **MSRP / List Price:** The standard commercial list price prior to any government or reseller discount.

• **FREE — 30 Days:** Base subscriptions include a complimentary 30-day trial. Contracted rates apply from day 31 onward.

• **Monthly vs. Annual:** Where both are shown, monthly rates are for month-to-month commitments; annual rates reflect a 12-month commitment paid annually.

• **Add-Ons & Overages:** Add-on SKUs are incremental charges layered on top of a base subscription. Overage rates apply only when usage exceeds the included allocation.

• **Enterprise Plus (Dedicated Deployment):** Dedicated deployment SKUs cover infrastructure, licensing, and GPU compute for single-tenant on-premise or dedicated cloud environments.

• **Currency:** All prices are in US Dollars (USD).

• **Effective Date:** These prices are effective March 2026 and supersede all prior versions. Prices are subject to change with 30 days' notice.
